

# TOBIG brand

TOBIG (Translational Orthopaedic Biomaterials Interest Group) is the first elaborate education platform on biomaterials for bone healing. Furthermore, the TOBIG platform aims to become the community for all HCP's to improve their clinical abilities in order to help their patients, by absorbing and sharing knowledge and experiences.

## Domain

Application of Biomaterials for bone healing in orthopaedic and traumatology surgery

## Pre-Conditions TOBIG

- TOBIG is a non-commercial independent open access platform that aims to educate and inspire HCP's around the world in developing the interesting upcoming field of the application of biomaterials in bone healing
- TOBIG's independency will be formalised in a TOBIG-foundation and as a registered and recognised association of HCP's like f.i. ESTROT
- Content of platform needs to be on academic level, so will in all times be signed-off of selected group of experts (trusted authorities in this domain)
- Only on-label cases will be displayed
- No patient-information shall be shared within TOBIG
- Professionals are responsible for a proper and legal registry of the uploaded data, they will be asked to sign the agreement of legal terms and conditions
- Everybody who actively wants to take part of the community has to identify himself as a HCP or interested scientist. The board of the foundation is free to check this

## Profile of participants in TOBIG community

The global TOBIG community is open for all (pro-) active HCP's with a professional attitude towards the development of the discipline of applications of biomaterials in bone healing, being one of the most prominent and promising innovative areas in our aging society.

## Desired response usergroup

Did not know this was available, this is great, new and inspiring

This is exactly what I was looking for while applying biomaterials in my job as HCP

I can apply this in my clinical practice

Great to have access to peers

Interaction opportunities are much needed?

How can I contribute?

Who makes this happen?
